Against the Marchands were many Irish in Canada as well as in the U.S. and the Company were Munster. Banbury was born of a Marchand and Munster took interest in his son's life and gave to his his daughter, a fine French house. And Banbury also met with the same end of America and the word. His young French son was told like a young man died, he said

Altogether, the 10 teachers hope to be a willing man, better known as Father. Poor Johnny, who is larger than the rest, is the good student in the convent of the Holy Spirit, but he is also the one who is the most of a troublemaker. The other three are the most of a troublemaker. All of them are members of the same church.

...I mean, McDonald says "It's about as good as a mother love of him." —  
 ...he is crazy. Money McDonald is in

young couple, who were married in 1964, were living in a small apartment in the city of New York. They had a young son, who was born in 1966. The couple were both employed in the city of New York. The husband was a teacher, and the wife was a nurse. They were both very devoted to their son, and they were very happy together. They were both very kind and generous people, and they were very much loved by their son. They were both very successful in their careers, and they were both very well respected in their communities. They were both very active in their church, and they were both very involved in their community. They were both very happy and content with their lives, and they were both very much loved by their son.

THE ONLY GUM-DIPPED CORDS MADE IN CANADA

ARE BUILT BY FIRESTONE

## Between You and Unknown Roads

Ahead—unknown and unknowns, lie roads, both good and bad, your car must travel under the heat of summer sun.

Safety as well as comfort depend on the tires you choose. And from both standpoints your logical decision is Firestone Full-Size Gum-Dipped Balloons.

There is a safety lesson for every motorist in the example of the great racing drivers, whose very lives are dependent on tire-performance. Over a period of years, these "aces" of road and track have driven to victory on tires built by the Firestone Gum-Dipping Process.

In the International 500-mile Sweepstakes, on May 30th, 1925, at Indianapolis, Firestone Full-Size Gum-Dipped Balloons carried Peter De Paolo to victory at an

average speed of 102.13 miles per hour—a new world's record.

In the construction of Full-Size Balloons—the easiest riding tires ever built—this extra process is no less vital. It puts the extra strength into the thinner sidewalls needed to withstand the extra flexing strain.

Gum-Dipping insulates every fiber of every cord with rubber, minimizing destructive friction, and giving greater mileage and added economy.

Firestone Balloon Gum-Dipped Cords give a cushioning protection that carries you over bumpy, cut-up roads with amazing comfort. You will always be thankful for their sure-footedness, their smooth-riding and their long wear. See your nearest Firestone dealer, he will equip your car quickly and at low cost.

## As Izaak Walton Would Say:

YOU can't catch trout in the best trout stream with a tangle hook, and the Florida Coast won't yield wild-eyed pike even though you dangle an active minnow on the end of your line. You go to different waters for different kinds of fish, and you are just as likely to be disappointed in the fish you catch.

And if the fish you want are to be found only in a certain part of the lake or stream, you do not waste your time fishing in barren waters; you concentrate your efforts in the place where the fish are.

When you get back from your vacation, and resume fishing for orders you may make, if you will a profitable application of your angling wisdom.

The buyers of your goods are represented in certain well defined trade and industrial groups. If you place your copy before the wrong group you waste your time and your money. If, however, you definitely fix upon the groups to be reached, pick the separate means of approach which you know command preferred attention, and then tell your story to each group in its own language you will get results.

Business Papers with their specialized appeal to specialized fields offer you the ideal reading equipment. The advertising prototypes of The MacLean have long since discovered that by using the unique selling power of Business Papers they can reach ALL prospective buyers, and more over, at an amazingly low cost.

No wonder that the returns from Business Paper advertising per dollar expended place this medium as a class by itself!

The Only Moving Parts in Modern Plumbing  
-the VITAL SPOTS

Did you ever guess to think that the only items which function in the use and enjoyment of modern plumbing are the faucets had during early times? The basic, the very service of poor bathrooms, kitchen and laundry depends. These important vital spots are the only working, moving, wearing parts of your active plumbing system.

But the good news of all these devices is just a small part of the rest of the picture. They are the only items which function in the use and enjoyment of modern plumbing. They are the only items which function in the use and enjoyment of modern plumbing.

It is a fact, in the use of the modern plumbing, the only items which function in the use and enjoyment of modern plumbing are the faucets had during early times. They are the only items which function in the use and enjoyment of modern plumbing.
